

About the Artist

Kat Flynt, Licensed Esthetician and Makeup Artist, got her start applying makeup for an Atlanta area studio's glamour shoots in 1993. From there she began receiving requests to do bridal makeup and entire wedding parties. After nine years of successfully proving her natural talent and self taught skills, she chose to continue her education and become a licensed Esthetician (Skin Care Specialist). Kat continues to enhance her God-given talent with on going education as well as guest teaching makeup applications at several local Aesthetic and Cosmetology schools.

Over the past few years, Kat's makeup career has turned more towards the fashion industry and she is now applying makeup on as many as fifteen models in a week for various photo shoots; with her work now being published in several Atlanta area magazines, videos, television commercials, and recording artists' CD covers.

Kat continues to study and practice her art from one extreme to the other; from the most natural beauty looks to the most dramatic fantasy looks; as well as offering a wide variety of beautiful and enjoyable aesthetic services including facials, body treatments, waxing, brow tinting, airbrush tans, lash extensions, and more....
