Career Objective

Working as a Freelance Makeup Artist (independent contractor) providing makeup applications and/or hair styling services for television, video production, magazines, ad campaigns and cosmetic brands; as well as teaching makeup applications.

Professional Profile

Kat Flynt, Licensed Esthetician and Makeup Artist, got her start applying makeup for an Atlanta area photography studio's glamour shoots in 1993. From there she began receiving requests to do bridal makeup and entire wedding parties. After nine years of successfully proving her natural talent and self taught skills, she chose to continue her education and become a Licensed Esthetician (Skin Care Specialist). Over the next few years her career turned more towards the fashion industry until she was applying makeup on as many as fifteen models in a week for various photo shoots with her work being published in several Atlanta area magazines. Finally she began working in the television and video production industry as well. Kat continues to enhance her God-given talent with on going education as well as teaching makeup classes at several local Aesthetic and Cosmetology schools.
